Dear Marilyn,

We are grateful for the [REDACTED] grant received from Tulalip Cares on April 6, 2023. As anticipated in our application, we used these funds to fill gaps caused by increased need, inflation, and barriers to accessing services via technology - long-term consequences of COVID. These gaps were and are felt across all of our programs, but especially in food security and in our assistance services that connect people to resources and reduce isolation.

We are proud to report that thanks in part to funders like the Tulalip Tribes Charitable Contributions, Sound Generations was able to fill gaps and provide the following services in 2023:

- Provide 739,058 meals to 7,388 older adults
- Support 422 unpaid caregivers
- Connect 1,724 people to resources, information, and unbiased and expert advice via our Pathways Information & Assistance Program
- Avert 115 crises through our Geriatric Regional Assessment Team (GRAT)

Overall, Sound Generations supported 28,084 older adults, adults with disabilities and unpaid caregivers in 2023. Over 1/3 of those supported were people of color and over ¾ had low incomes. Below are a few pictures from last year, especially featuring our Meals on Wheels program, which delivered over half a million meals last year, a huge number, but still faces a growing wait list. Thank you again for all of your support of Sound Generations and older adults in our community!

All the best,
